

MAYANK THAKUR

Software Engineer

Jaipur, Rajasthan • +91 9119209907 • heyamayank2001@gmail.com • github.com/iammayank18

TECHNICAL SKILLS

Languages: JavaScript (ES6+), TypeScript, Python

Frontend: React.js, React Native, Redux, TanStack Query, HTML5, CSS3, SCSS, Tailwind CSS

Backend: Node.js, Express.js, NestJS, FastApi, SQL, MongoDB, REST API design, JWT authentication, RBAC

Practices: Low-level design (LLD), OOP, design patterns, separation of concerns, API contract design, code review

Testing: Jest, React Testing Library, Vitest, Playwright, Detox

Cloud & DevOps: AWS (EC2, S3, Lambda), GitHub Actions, CI/CD, Docker

EXPERIENCE

Software Engineer Feb 2024 – Mar 2026

[REAL](#)

- Contributed to Bolt, a CRM platform for real estate agents, using React.js and React Native.
- Built chat and voice interfaces for LEO AI to support client workflows and daily operations.
- Developed 100+ reusable web and mobile components with API integration, state management, and shared architecture.
- Converted 50+ Figma designs into responsive production-ready web and mobile interfaces.
- Optimized React.js and React Native screens by reducing unnecessary re-renders and improving UI performance.
- Wrote unit, integration, and E2E tests using Playwright, Jest, Vitest, and Detox, covering 95%+ critical flows.
- Resolved production issues and hotfixes across multiple release cycles, improving platform stability.

Founder & Software Engineer Apr 2023 – Jan 2024

[Wayverb](#)

- Built a SaaS-based school management platform from scratch using React.js, React Native, Node.js, MongoDB and Firebase Realtime DB and messaging.
- Designed and implemented 10+ core modules, including admissions, onboarding, attendance, and all school operations workflows.
- Built an AI assistant into the platform that lets schools analyze their data and generate reports on demand.
- Developed parent-school communication systems supporting parent-teacher meetings, emergency alerts, and student analytics dashboards.
- Visited schools on-ground to discuss and onboard.

Software Engineer Intern Jul 2022 – Mar 2023

[Mindnerves Technologies](#)

- Worked on a job search platform and a digital monetization platform, build components and screens using React.js, React Native and TypeScript.
- Managed server state and asynchronous data fetching using React Query.
- Wrote component-level test cases with high UI coverage, reducing regression issues during releases.

PROJECTS

mimi.js — Open-Source Node.js Framework github.com/iammayank18/mimi.js

- Built and published an open-source Node.js framework in TypeScript for building web APIs, delivering up to 4x faster performance compared to Express.js.

FocusLoop — Chrome Extension focusloop-app.vercel.app

- Built a Chrome extension for time tracking and productivity management, designed to support deep work sessions.

EDUCATION

Bachelor of Technology, Computer Science Engineering 2019 – 2023

Arya College of Engineering and Research Center, Jaipur

Coursework: Data Structures & Algorithms, OOP, Operating Systems, DBMS, Computer Networks
